

1st Biomedical Research Symposium

Date: Saturday, 7-5-2011

Place: Conference Hall- Palestine Polytechnic University, Abu Roman Campus,
Hebron

Time	Activity
8:30-9:30	Registration
9:30-10:00	Welcome Note: Chair of the Board of Trustees President of Palestine Polytechnic University Dean of Graduate Studies & Scientific Research
10:00-10:20	Jawad Alzeer , New Target for Cancer Therapy
10:25-10:35	Raed Ghniem , Molecular characteristics of <i>Bordetella pertussis</i> of South Palestine
10:40-10:50	Randa Kattan , Genetic Variability and Molecular Epidemiology of Respiratory Syncytial Virus (RSV) in Southern Palestine
10:55-11:05	Mohammed Qabaja , Avian Pathogenic <i>E. coli</i> (APEC): A Potential Source of Public Health Problems in Palestine
11:10-11:20	Belal Tamimi , BACTOSOM; A novel tool for Comparative Bacterial Proteomics
11:25-11:45	Coffee Break
11:50-12:00	Mohammed Salahat , Two Novel BRCA1 and BRCA2 mutations in Palestinian Women Affected with Breast Cancer
12:05-12:15	Mai Alabed , PTEN Expression in Palestinian Women Breast Cancer: A especial spot light on Triple Negative Breast Cancer Subtype
12:20-12:35	Rami Aqeilan , Launching PFMR
12:40-13:20	Yaqub Hanna , Pluripotent Stem Cells and Epigenetic Reprogramming
13:30-14:20	Lunch
14:20-14:30	Abeer Zawahreh , SNPs Associated with Beta Thalassemia Phenotypes Modification in the Palestinian Population
14:35-14:55	Nouar Qutob , Worldwide MHC Class I and II Diversity in Humans
15:00-15:20	Jony Stiban , Visualization of Mitochondrial Ceramide Channels by Transmission Electron Microscopy: A Pathway for Cell Death
15:25-15:35	Haya Borqan , Cytogenetic and Molecular Analysis for Azoospermic and Oligospermicinfertile Men in Palestine
15:40-16:00	Closing Remarks
16:00-16:30	Predeparture Coffee
